School Make-up Days are Based on Amount of Instructional Minutes for the Year

Many people have been asking about the amount of days we will need to make-up due to the recent cancellations due to severe weather. The DPI requires all schools to meet a standard amount of instructional minutes each year. Thus far, and thanks to our buses being stored indoors during the extreme cold weather, and our scheduled In-Service this past Monday, we are still projected to meet our state requirements of instructional minutes and have no need to alter our school calendar at this time.

Dear Class of 2020 parents,

It's hard to believe but our kids' junior prom is just around the corner. Traditionally the parents/guardians of the junior class have planned and worked a safe, substance free post prom event.

We are asking all parents/guardians of the class of 2020 to help make this event a success for our high school students.

We are encouraging any Juniors and their parents/guardians to attend an initial planning meeting on Wednesday, February 13th at 6:30 at McGuire's.

The junior class will be asked to help us make decisions on location and other details.

As parents, we will need lots of ongoing help with planning including soliciting donations and prizes, planning activities, booking the location etc.

We hope you are all able to join us so that we are able to make this a fun event for our kids.

Any questions contact Lisa Misco.

Thank you!

February Lena Elementary/Title One Tips

Math tip: Use a deck of cards or a pair of dice to practice math facts. Pick 2 cards or roll the dice. Write the related addition and subtraction math facts. Older student can write the related multiplication and division facts. Example pick a 3 and 5. $3 + 5 = 8$, $8 - 5 = 3$.

Reading Tip: Read a story with your child. Ask them what their favorite part is or what was the part they didn't like. Make sure they tell why. (Support their answer)
